# *The Learning Machine*

# Commodore 16

# The First Step...

... into the world of computing is a Commodore computer. The new Commodore 16 is a powerful, 16K tool for anyone, any age to edge into computer literacy. Complemented with a full range of peripherals and software, the Commodore 16 is your perfect learning machine.

## CM 141

The new Commodore CM 141 is a quality, high resolution color monitor. Redesigned to cosmetically coordinate with the Commodore 16, the CM 141 gives you the same quality picture as the Commodore 1702. Completely compatible with all Commodore equipment.

## 1531 Cassette

The Commodore 1531 cassette drive unit is the perfect storage device for your first computer system. Compatible with the Commodore 16, it runs standard audio cassette tapes, digital tapes are not necessary. Play, record and save your programs with the Commodore 1531 cassette unit.

## MPS 802

The Commodore MPS 802 is a dot matrix printer which adds versatility to your Commodore computer. It prints alphabetic, numeric and all graphic characters. Combined with the 1531 cassette unit and your Commodore 16, it completes a perfect system for the uninitiated computerist.
