Some of the useful features include an ongoing record for each employee, with quarterly and yearly totals, comprehensive reporting including: W-2's and quarterly tax summary and Payroll journal and computation and printing of payroll checks. **(Diskette)**
Commodore Plus/4
Productivity at Your Finger Tips

The Commodore Plus/4 is the newest addition to the Commodore product line. Dubbed "The Productivity Machine", the Plus/4 is perfect for finances, accounting or any small business application. The machine comes complete with four products built-in: wordprocessing, database, spreadsheet and graphics all integrated for ease and usability, 64K memory and extended basic.
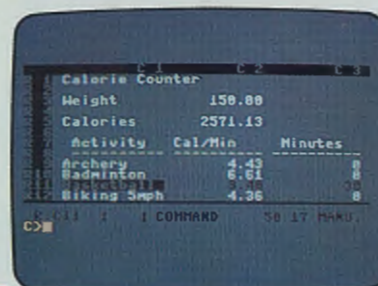

Four Valuable Programs Built-In

File Management

The **File Manager** allows you to collect, store, organize and retrieve information such as mailing lists, inventories, personal files, business files, recipes, and more. Sorting information and reorganizing data is especially useful in creating form letters, labels and reports. Best of all, the file manager lets you design your own applications, without having to program the computer or learn any complicated commands. Integrated to work with the wordprocessor.
Spreadsheet

The PLUS/4's built-in **Spreadsheet** gives you a giant electronic spreadsheet which automatically performs complicated calculations and projections... at the touch of a key! This powerful calculation tool is ideal for home or business budgeting, sales projections, management decisions, loan/mortgage charts, profit/loss statements, income tax records... or design your own use. Every time you change a number, your PLUS/4 automatically recalculates the entire spreadsheet. Calculating numbers has never been so easy. Plus... it is integrated to work with the wordprocessor.
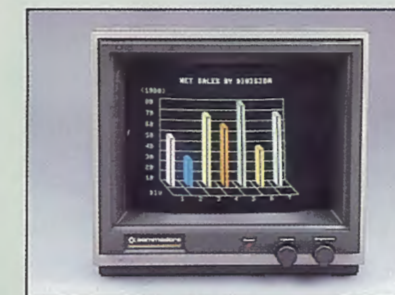

Word Processing

This handy built-in **Wordprocessor** allows you to write letters, reports, student papers and more without any additional software. Computerized editing makes it easy to revise your text on the screen before printing anything on paper. You can save your documents on standard floppy diskettes to recall them for reprinting or updating. Best of all... the PLUS/4 wordprocessor is integrated with the built-in spreadsheet, so you can move calculation sheets from the spreadsheet program into the wordprocessor to include in a written report! This is the first time word-processing and spreadsheet capabilities have been integrated in a home computer.

Graphics

Your PLUS/4 has a built-in **Graphics** capability which is integrated with the spread-sheet so you can visually display and evaluate your calculations. The PLUS/4 also has over a dozen new BASIC commands which make it easy to program your own high resolution graphics in color, and save your creations on disk or tape. PLUS/4 graphics make it easy to draw circles, boxes and complex shapes and images... and... combine them with text on the screen... and... paint the images you create with a single command. Computer graphics have never been so easy!

Commodore Plus/4 is backed by a full range of Quality Peripherals.

CM 141

The new Commodore CM 141 is a quality, high resolution color monitor. Redesigned to cosmetically coordinate with the Plus/4, the CM 141 gives you the same quality picture as the Commodore 1702. Completely compatible with all Commodore equipment.

MPS 802

The new Commodore MPS 802 dot matrix printer is a 60 CPS near letter quality, high performance peripheral. The MPS 802 has graphic capabilities, 80 columns and is compatible with the Commodore 16, 64, SX 64 and the Plus/4.

DPS 1101

The Commodore DPS 1101 is a true letter quality printer. This daisy wheel model is compatible with the SFS 481 and the Commodore Plus/4. It has a 13" maximum width and prints at 18 CPS. For true letter quality reproduction, the Commodore DPS 1101 is the right choice.

SFS 481

The new Commodore SFS 481 fast disk drive is compatible with the productivity machine, the Commodore Plus/4. Coupled with the DPS 1101, letter quality printer, the Commodore SFS 481 turns your Plus/4 into a true business system. With 1675 Bytes/second and an average access time of 295 milliseconds, the intelligent SFS 481 allows for both quick access and load and fast retrieval of programs. Optional drive is the Commodore 1541.

Personal Finance

Financial Advisor A sophisticated financial aid program, this helpful tool computes loan, mortgage and investment formulas. A must for the financially minded person. **(Cartridge)**

Silent Butler You don't have to be rich to have a butler. With this new home accounting program you can keep track of bill paying, household transactions, reconcile accounts and up to 6 separate accounts——3 checking and 3 saving. Also included is a tax summary and appointment reminder. **(Diskette)**

Easyfinance Series Loan and mortgage calculations, annuities, statistical forecasting, investing, business math, bar graphs...they're all included in this special software series which computerizes your most frequent financial calculations for home and business management. **(Diskette)**

Educational Programs

Logo This versatile educational "turtle" language includes four different types of screens, LIST processing, hi-res graphics, sound commands and more. **(Cartridge)**

Pilot II A simple programming language designed for people who wish to create their own educational lessons. **(Cartridge)**

Golf Classic/Compubar (Ages 10-14) (Milliken Edufun Series) Golf Classic teaches angle and length estimation while Compubar helps you learn to read graphs and construct arithmetic expressions. **(Diskette)**

Frenzy/Flip Flop (Ages 6-14) (Milliken Edufun Series) Combines 2 games in 1. In Frenzy the lesson teaches subtraction and division while Flip Flop teaches transformational geometry. You'll flip over this game! **(Diskette)**

Gulp!/Arrow Graphics (Ages 6-12) (Milliken Edufun Series) Learn addition and multiplication drills in GULP! as you escape the hungry jaws around you. Problem solving and directionality are taught in Arrow Graphics as you follow the traveling arrow. **(Diskette)**

Easy Match/Easy Count (Ages 4-6) (Kinder Koncepts) Practice in identifying shapes and letters and counting objects sharpens important pre-reading and pre-math skills. **(Diskette)**

Alien Counter/Face Flash (Ages 4-9) (Milliken Edufun Series) Count flying saucers, aliens and numbers in the sky, but hurry because they disappear! **(Diskette)**

Battling Bugs/Concentration (Ages 9-12) (Milliken Edufun Series) Sharpen your knowledge of positive and negative numbers with Battling Bugs while developing skill recognizing equivalent fractions in Concentration. **(Diskette)**

What's Next/Letters Or Numbers (Ages 4-6) (Kinder Koncepts) Practice in identifying correct sequences of numbers and letters. **(Diskette)**

A Letter Match/More Or Less (Ages 4-6) (Kinder Koncepts) Gives instruction in upper and lower case letters, more or less relationships and matching numbers. **(Diskette)**

Shapes and Patterns/Group It (Ages 4-6) (Kinder Koncepts) Practice in identifying the similarities and differences between shapes and patterns as well as practice in addition and subtraction. **(Diskette)**

Letter Sequences/The Long Or Short Of It (Ages 4-6) (Kinder Koncepts) Identify three letter sequences and match shapes according to length. Great practice for young children. **(Diskette)**

Strategy/Adventure

Zork I Collect the treasure and escape alive in this fantasy dungeon adventure. **(Diskette)**

Zork II This dungeon adventure dares you to find treasure and secret places, and still survive. **(Diskette)**

Zork III The ultimate dungeon test challenges you to discover the dungeon master's secret purpose. **(Diskette)**

Deadline You've only got 12 hours to find the murderer and solve the mystery in this challenging strategy game. **(Diskette)**

Starcross Face the challenge of your destiny as you meet aliens and the unknown in this science fiction mindbender. **(Diskette)**

Suspended Awaking after 500 years, you must solve varied and original puzzles to save your planet from total destruction. **(Diskette)**

Atomic Mission The nuclear reactor will explode if you don't find and disarm it. **(Cartridge)**

Pirate Adventure Can you escape the pirates and find buried treasure? **(Cartridge)**
